"Conflict of interest". The fact that World Archery official is associated with another organisation in the sport such as a Member Association does not in and of itself constitute a conflict of interest. The following is a non-exhaustive list of examples of circumstances in which conflicts of interest could arise: personal and/or material involvement as an employee, contractor, director, trustee, shareholder, partner or other position with suppliers to World Archery, sponsors, broadcasters, or other parties contracting with World Archery or any other organisation or person likely to benefit from the assistance of World Archery (such as a subsidy, approval or election).

16. If you are successful in this position, please describe the ideas, projects and activities you plan to implement for World Archery

I would like to create a some kind of monitoring and skill development tracker application and try to encourage the all the teams for sharing their training datas.

This software can give relative feedback to teams for following and compare their athletes recent form with all the others.

The main goal will be following the athletes during the off season and this will be useful for predictions of results of the season.

Also this tracking will give some ideas to WA about the which country/team need really help for coaching - planning or technical equipment.

I believe this predictions can help the WA or event Member Associations for to make new sponsorship applications.
