**Definitions:**

"Interest". An "interest" means and includes any interest, direct or indirect, whether private or personal, financial or otherwise related to World Archery official concerned. This also includes the interest of a third person (such as a parent, spouse or other immediate family, or dependent).

"Conflict of interest". The fact that World Archery official is associated with another organisation in the sport such as a Member Association does not in and of itself constitute a conflict of interest. The following is a non-exhaustive list of examples of circumstances in which conflicts of interest could arise: personal and/or material involvement as an employee, contractor, director, trustee, shareholder, partner or other position with suppliers to World Archery, sponsors, broadcasters, or other parties contracting with World Archery or any other organisation or person likely to benefit from the assistance of World Archery (such as a subsidy, approval or election).

**16.** If you are successful in this position, please describe the ideas, projects and activities you plan to implement for World Archery

My major area of interest in my work concerns the analysis of performance parameters through laboratory tests in order to identify talents and to develop increasingly specific and targeted training programs. In particular in archery I think it is interesting to deepen the study of the influence of posture as well as the psychological aspects and the visual component.

My 15 years of experience as a DCO leads me to be interested in the divulgation of doping and anti-doping regulation, as I realize from my work on the field that athletes and coaches are often poorly informed about the rules, sanctions and methods of request for therapeutic exemption necessary to be authorized to take medicines essential for health.

In general my main field of intervention is aimed at the aspects of prevention, general health and injuries.
