## BANGKOK

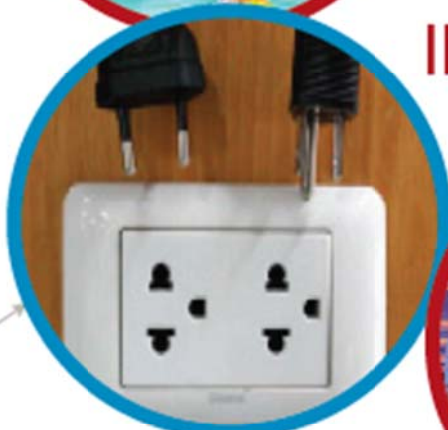

Bangkok, capital of Thailand and one of Asia's most dynamic cities, offers surprises at every turn. Gleaming skyscrapers, glittering temples, colourful street markets, sophisticated shopping malls, bustling nightlife, all jumbled together in a completely wild and exotic atmosphere. It is cheap while at the same time providing excellent standards. That goes for food as well as for accommodation.

## AIRPORT

Suvarnabhumi International Airport in Bangkok is the main air gateway into Thailand. It serves more than 50 international airlines, representing every major carrier in the world. Apart from Suvarnabhumi Airport, regional airports, such as Chiang Mai International Airport, Phuket International Airport and privately owned Samui International Airport, serve a small number of direct international arrivals and departures each day.

# GENERAL INFORMATION

## Voltage, Sockets and Plugs

Thailand's voltage is 220-240AC, 50 Hertz. The plugs in Thailand are not standardized – there are at least three different types, some two pin and some three, so be sure to either bring a universal adapter or buy one once you arrive in Thailand.

## Wat Phra Kaew

Start your Bangkok temple tour at the Grand Palace and Wat Phra Kaew, or Temple of the Emerald Buddha. This Buddhist temple was built inside the grounds of the Grand Palace and is the most visited of all the Bangkok temples. Carved into a block of jade, the Emerald Buddha – who wears one of three royal robes depending on the season – is the well-known icon of this temple and to the Thai people, even though it's a relatively small icon standing at only 66cm. ## THAI MASSAGE

Thai massage draws significant influence from India's ancient Ayurvedic traditions of medical practice. Ayurvedic medicine, also a holistic form of healing, plays an integral role in the practice of both Hinduism and Theravada Buddhism. Monks and similar practitioners of healing transmitted Ayurvedic techniques to Thailand some 2,500 years ago, thus giving birth to the wonderful phenomenon that is Thai massage.

## THAILAND AIRPORTS

These days we have many international airlines from many countries all over the world operating from Don Mueang and Suvarnabhumi, making these some of the most important airports in South East Asia. There are also international airports in tourist popular provinces of Thailand such as

Chiang Mai, Chiang Rai, Phuket, Hat Yai, Udon Thani, and Krabi.

Arrivals Your arrival at the main terminal building may be through a terminal gate or bus gate, depending on your airline and flight route. For bus gates, you will be brought to within a few hundred meters of Immigration

(located on the second floor) whereas via the terminal gates, you may have to walk for quite a bit before getting to Immigration. There are plenty of restaurants, phone shops with SIM cards, and ATMs outside customs in the arrival's hall at Bangkok Airport.

### Passengers Arrival/Arriving Passengers

passengers Arrival must fill in their personal information on the Passenger Arrival Document no. 6 which is issued by the Immigration Bureau as evidence for contacting passengers while they are staying in Thailand. The staff of the airline you travel with will give the aforementioned document to passengers so that they can fill it in before the plane lands (traveling to Thailand).

### Visas and Travel Documents

Passengers who do not have arrival visas (please see the list of countries below) can apply for visas at the arrival counter by bringing 2 one-inch photos and paying the fee of 300 Baht. Passengers who do not have photos can use photo express service in the airport at 120 Baht (4 photos).

### Departures

All departures at Bangkok Airport are handled at the airline check-in counters located on the fourth floor. Domestic check-ins are from Rows B to C. Row A is dedicated to Thai Airways' Royal First Class and Royal Silk passengers.

For international departures, proceed to Rows D to W. Always be prepared to arrive at least two hours before international departures or one hour before domestic departures. <http://www.bangkok.com/information/airport.htm?cid=ch:OTH:001>

### WEATHER

Thailand is located between vast areas of land and water, so it is impacted by both the summer and the winter monsoons. As a result, Thailand weather consists of six months of rainfalls during the wet season, three months of dry and cooling breezes during the cool season, and three months of heat during the hot season. The average temperature of Thailand ranges from 18 to 38°C.

The hot season is from the middle of February to the middle of May, with April being the hottest month. Interesting places to visit during this period are beaches and islands in the South and the East of Thailand.

### Time Differences

Thailand follows UTC+07:00, which is 7 hours ahead of UTC. The local mean time in Bangkok was originally UTC+06:42:04. [1] Thailand used this local mean time until 1920, when it changed to Indochina Time, GMT+07:00, ICT is used all year round as Thailand does not observe daylight saving time.

### Currency

The currency in Thailand is called the Thai baht (pronounced baht) and is usually represented by an uppercase "B" with slash through it. When you are shopping in stores, you will see this on the price tags. While you can use U.S. dollars in some

countries, they're not widely accepted in Thailand. You will need to exchange for the baht. <https://www.tourismthailand.org/About-Thailand/Bank-Currency-Converter>
