## A. GENERAL INFORMATION

### 1. XVIII Mediterranean Games Tarragona 2018

The Mediterranean Games are a sport competition organised every four years, for the athletes of the National Olympic Committees (NOCs) of the Mediterranean countries members of the International Committee for the Mediterranean Games (ICMG). It is both a sport competition and a crossroad for the cultures, continents and people of the Mediterranean basin.

The Mediterranean Games are placed under the aegis of the International Olympic Committee.

### 2. Tarragona and the co-host cities

The 2018 Mediterranean Games will take place in Tarragona and in 15 other co-host municipalities, two of which are in the province of Barcelona (Barcelona and Casteldefells).

The 13 municipalities of the Tarragona surrounding area are: Altafulla, Cambrils, Calafell, Constantí, El Morell, El Vendrell, La Pobla de Mafumet, La Selva del Camp, Reus, Salou, Torredembarra, Valls et Vila-seca.

Tarragona lies in Southern Catalonia and it is the capital of the Tarragona district and of its province. Founded in the 3rd century bC, it has a large port and it is the heart of a vast

petrochemical centre. It was the capital city of the Roman province Hispania Citerior and it still retains important archaeological remains of that period.

Tarragona is a city of light and colours. Its climate, gentle and Mediterranean, together with the welcoming ambiance of its streets and the hospitality of its inhabitants, helps create the large, fun, festive and cultural space in the open air that it has become.

On the shores of the Mediterranean Sea, Tarragona is one of the four capitals of the region of Catalonia; it is located 92 km South of Barcelona. The city spreads along 14 km of the littoral and its beaches have fine and golden sand, hence its name of Golden Coast (*Costa Daurada*).

Tarragona is a worthy heir of the Imperial Tarraco. It is a unique city that has succeeded in combining its remarkable Roman and medieval heritage with true modern gems: all serves to make it a prime tourist destination.

The city has always sought to recognise and respect its Roman heritage. This has led to the inscription of the archaeological ensemble of Tarraco, which lays in the city, to the UNESCO's World Heritage, in 2000.

### 3. Climate

Tarragona enjoys a real Mediterranean climate, with mild temperatures during winter, and warm, dry summers.

The yearly average temperature is slightly over 16°C and rainfalls are inferior to 500mm.

It only rains between 2 to 4 days in June and July, with an average temperature of 24°C.

## 6. Rules of the competition

The Archery competition will be held according to WAF rules **in force on 1 January 2018**, unless the ICMG exceptionally authorises otherwise.

All other issues not covered in this Technical Manual will be solved as follows:

- For general issues, ICMG regulations will apply.
- For technical issues, WAF regulations will apply.

## 7. Technical organisation

RFETA, under the supervision of WAF Technical Delegate, is responsible for the technical organisation and for the development of the Archery competition during the XVIII Mediterranean Games Tarragona 2018.

### 7.1 Special procedures for the development of the competition

Any issue that may arise prior or during the events will be resolved by the competition management, as per ICMG and WAF rules, **in force on 1 January 2018**, unless the ICMG exceptionally authorises otherwise.

The exact measures to be taken regarding the organisation of the Archery competition will depend on the final number of participants.

### 7.2 Competition system

The competition will be divided in three (3) phases: qualification rounds, elimination rounds and a final.

The competition system retained is the WAF 70-metre event in which 72 arrows are shot from 70 metres at 122 cm target faces:

For the qualification rounds, the archers will shoot 72 arrows, in ends of 6 arrows, at a distance of 70 m, on a 122 cm-target.

For the qualification rounds in the team event, each archer will shoot a maximum of two (2) arrows per set.

All the competitors will shoot from the same field and stand.

The Olympic round system will be retained for the elimination rounds and the finales, both for individual and team events.

The individual elimination rounds will be carried out by a system of set. Each set will have three (3) arrows per archer. Each set won is two (2) points; a set tied is one (1) point. The first archer to reach six (6) points will win the match with five (5) ends of five (5) maximum. If there is a tie at five (5) points in a set, a further end will be organised with one (1) arrow to break the tie.

The exact measures to be taken regarding the organisation of the Archery competition will depend on the final number of participants. Direct qualification rounds will be applied, following WAF regulations (byes).

The team elimination rounds will be carried out by a system of sets. Each team will shoot a maximum of four (4) ends of six (6) arrows in total, or two (2) arrows per archers. The first team to reach five (5) points will win the match. If there is a tie, an extra set will be played in which each archer will shoot one (1) arrow. The winner will be team with the highest score with the three (3) arrows of the team. If there is a tie, the team with the arrow closest to the centre of the target will win. If there would still be a tie, at the same distance, the distance will be reduced to the next one, until the tie is broken.
