Results

4.1 Timing control system

World Archery timing equipment will be used for timing and scoreboards on preliminary rounds and finals. During qualifications and elimination rounds, the clock will run until the end, without interruption of the Director of Shooting.

4.2 Results system

- Qualification Round - scoring will be completed by athletes. One athlete records, on the official paper based score sheet, the scores of all other athletes on that target. At the same time, another athlete, on that same target, will enter all the scores of the athletes on that target into the scoring tablet.
- Scorecards MUST be signed by both the athlete and the scorer, have all the totals mathematically correct with the 10s+Xs and X count fully completed. Any scorecards where the 10s+Xs and X count are not completed a “0” will be given for the total of 10s+Xs and X count for that athlete. Any score cards not signed or the score total is missing will result in disqualification.
- Elimination Round – scoring will be completed by athletes. One athlete/team records the arrow values of both athletes/teams on the paper score sheet. While at the same time, the other athlete/team inputs the arrow values into the scoring tablet. Both athletes/teams should verify that all scores are written and entered correctly before returning back to the shooting line.
- At the end of the match, the scorecard must be fully completed and signed by the athletes (or agent/judge in the case of finals) involved in the match.
- Scoring tablets will be used during the Qualification and Elimination Rounds, but not in the Finals. Mr. Matteo Pisani (World Archery head of technology) is responsible for the results of the event.
- **IMPORTANT NOTE: There will be internet access in the official hotels and the venues. Because of this we will not distribute any printed results and information.**

Policies and Procedures

Officials and Team Management

Introduction

Since we have more and more teams coming with more and more athlete support personnel, it is time that clear provisions are made on the type of official and what their access is to the field of play.

Definition of team officials:

- Coach (a person that is involved in assisting the athlete from the waiting area and has a qualification in doing so recognised by his national federation)
- Team Manager (the person in charge of the management of the team including taking responsibility for the behaviour of all athletes and other officials. This person is not necessarily a coach)
- Medical (a medical doctor who has a medical certification and who can only act on people of his own team if he is so authorised to do so)
- Other athlete support staff (Physiotherapist, Sport Psychologist, Nutritionist, Biomechanical researcher, ...)
- Other National Federation officials (President, Secretary General, Technical Director, translators...)
- Other World Archery Officials and staff
- Other (not defined and therefore should be avoided) Definition of

Field of Play and controlled area:

- The definition for the purpose of this document is the area where the archers are shooting their competition, and which is controlled by an accreditation check. This includes the waiting area and the rest area.

For instance, there is a clear difference in terms of the access of a coach that is actively coaching an athlete and a physiotherapist or sport psychologist.

Teams must manage themselves and at no moment will World Archery advantage teams over others. Especially small teams with as good as no officials should not be disadvantaged on the actual field of play.

When we define field of play, we also need to be clear which area we consider. For instance, it is not the same on what is the waiting area where coaches would typically spot the arrows and the tent area where other necessary officials could have access when required (for instance team manager or medical staff in case of emergency).

In terms of the actual management of the team numbers, this is first of all the role of the team itself and their team manager. In case there are issues he will be the first responsible to resolve them or also suffer the consequences of misbehaviour of their athletes or officials.

On the active part of the field of play the current rule works which is maximum 1 coach per athlete

In consultation with the medical committee, it is quite clear that unless in case of medical emergency, there is absolutely NO NEED for any medical staff to have access to the field of play. Depending on the configuration you can argue that they have access to the rest area but in future specific areas should be made available where medical staff and other athlete support staff (such as physiotherapists, chiropractors, ...) can assist the athletes. These areas should provide a minimum privacy and should not just be in an open tent or other open area but close to the access gates of the field of play.

Access for the team manager. A team manager has access to the field of play as long as any athlete of his team is competing or has finished competing in the 15 minutes preceding the time, so he can take care of any official business for his team such as:

- Making sure that his team members are only on the field of play when necessary
- Give information to his team
- File an intention of appeal or appeal if necessary
- Communication with the judges, LOC or World Archery
- Get emergency assistance for his team members

ONLY Team officials that are in proper uniform (meaning clearly identifiable as belonging to the athletes shooting at that time and in the same colour schemes) can be in the controlled area. This includes the National Federation Presidents, Secretary General, Technical Director or anyone else.

Use of upgrade cards

Teams can purchase upgrade cards which are non-transmissible and for one event only. These upgrade cards do not provide additional number of officials on the field. In case of misuse they will be invalidated, and further action could be taken.

Access to VIP areas for Team officials

In principle there is no access for team officials to VIP areas unless they have a specific VIP accreditation. The following people have automatic access to VIP zones:

- World Archery Executive Board Members & Senior World Archery staff
- LOC Board & Senior Staff
- World Archery Permanent Committee members (on condition that they are not accredited as team official for the event)
- A maximum of two representatives of future organisers of World Archery events (World Cup stages, World Cup Final, World Championships)
- The President and Secretary General of the host nation if they are not part of the LOC
- Sponsor guests
- Guests of World Archery and the LOC based on an agreed list by the LOC and World Archery
- Jury members if no other place is available for them to be close to the field of play

The LOC might offer additional access for the VIP area at cost for national federation officials. The cost will be communicated upon arrival at the event.

Consequences of not respecting access to controlled areas:

Any accredited person that is not respecting the access to the controlled areas will be verbally warned and asked to leave the zone. Failure to do so might result in loss of accreditation for the day, the event or in suspension and fines for the person concerned and/or the team concerned. The decision for the removal of the accreditation lies with the World Archery Secretary General or in his absence the Event Director. For consequences beyond the event, the matter will be sent to the Board of Justice & Ethics.
