## EDITORIAL

by James L. Easton, President of the FITA

Since the last Bulletin, FITA had a successful and productive Council meeting and we received good news on our Team Round competition at the 1992 Olympic.

I am very pleased about the reinstatement of the team round competition in Barcelona. The IOC Program Commission had removed the team event early in 1989. This reinstatement would not have occurred without the support of the President of the I.O.C., S.E.M. Juan Antonio Samaranch, and the agreement of Mr. Abad of the Barcelona Olympic Organizing Committee. For the strong support of Mr. Samaranch at the IOC Executive Committee Meeting, we are all very grateful.

The goal of the I.O.C. Program Commission is to remove team events in all individual sports. Our Team Round is only in for the 1992 Olympics. We must convince the Program Commission and the I.O.C. to keep the archery team event in the Olympics as long as the team events in other individuals sports (like gymnastics, fencing, and others) remain.

The recent Council in Athens acted on the following items:

1. An Ad Hoc Committee for Communication and Marketing was formed. Members include Mr. Don Lovo, Mr. Steve Lieberman, Mr. Leif Janson, and Miss Laurence Frère, with the President acting as temporary Chairman. The Committee will be charged with the very important goal of suggesting ways to improve the television interest in FITA archery competitions and obtaining sponsors for FITA and our tournaments.

(cont. on page 2)

**WORLD RECORD** At the Athens Indoor »OPEN« Championship the 25 m. record was broken, ERWIN VERSTEGEN (HOL) by scoring 591 points, improved it by 2 points!

Mr. Knud Andresen

#### IVth WORLD GAMES

The Hague (HOL) 1993

Mr. Wim Schwanen

## PROGRAM

Thursday	14th June, 1990
15.30-18.30	Official training Equipment inspection
Friday	15th June, 1990
10.00-10.30	OPENING CEREMONY
10.30-11.00	Equipment inspection Qualification Round
11.00-14.00	Long distances
15.00-18.30	Short distances
20.00	COCTAIL at Hotel TRAKOSCAN
Saturday	16th June, 1990
11.00-13.00	1/8 finals
15.00-17.00	1/4 finals
Sunday	17th June, 1990
10.00-12.00	1/2 finals
14.00-16.00	1/1 finals
17.00-17.30	CLOSING CEREMONY
20.00	BANQUET at Hotel TRAKOSCAN

2. A Skiarc Ad Hoc Work Group was formed to start development of standard rules and promotion of the sport. Mr. François DeMassary and Mr. Franico Carminati are members of this group and an additional member will be named by the Secretary General.
3. A one time amnesty period for compound bow field and indoor archers was set to allow them to reinstate their eligibility. This amnesty period will last until June 1, 1990.
4. The sanctions against archers who shoot in tournaments organized by other organizations (per article 201 e) will not apply for field and indoor compound bow archers.
5. The European TWAC course will be held in Trakoscan, Yugoslavia in 1990 and possibly in Kielce, Poland in 1991.
6. The 1992 Championships of Europe and Mediterranean Outdoor Target Archery was awarded to the Archery Association of Malta.
7. A new international competition consisting of a Grand FITA Round for teams from archery clubs is planned in Yugoslavia from 14-17 June, 1990.
8. Eligibility rules and tournament advertising rules will be received by the Constitution and Rules Committee and their suggestions presented to Council and the next Congress for discussion and approval.

The Council meeting was very productive and added some changes needed to include many more existing compound bow field and indoor archers into FITA affiliated organizations and competitions. With all the benefits FITA can offer this large group of now unaffiliated (with FITA) archers, FITA can look forward to good growth of our sport.

Best regards,

Jim Easton

Jim Easton, FITA President received the Gold Souvenir Plaque from the hands of the President of the Organising Committee Fotis Dimitracopoulos, during the excellent Opening Ceremony of 4th Indoor OPEN Championship of the Europe and Mediterranean in Athens (GRE).

## 1st Club Teams World Cup

Club work is an essence of all sport activities. First steps to archery, all trainings and most competitions are organized through clubs. Membership in a club and protection of its colours is an honour of every archer. The best are the national champions, but their full value is seen in international competitions. National champion clubs competition should fill the gap and give the best clubs the chance to win the adequate title.

This proposal is accepted by FITA Council in Athens and we are grateful to FITA President and all Council Members to give us privilege to playing host for 1st CLUB TEAMS WORLD CUP 1990 in Trakoscan (YUG).

From 14th to 17th June, 1990 the mens and womens teams National Champions clubs will compete in Qualification Round and Grand FITA Round for teams. Team consist of 4 archers in Qualification Round and 3 archers in FINALS. Best 24 teams go to 1/8 Final, 18 to 1/4 Final, 12 to 1/2 Final and 8 best to Grand Final.

In the name of Yugoslav Archery Association Mr. Nenad Slukic will chair the Organizing Committee, constituted principally by officers of the Archery club »KOKA« - Varazdin, a club of which he is the Vice-President. He is the President of the Croatian Archery Association.

The delegation will be lodged in hotel »Trakoscan«. The hotel prices are: bed & breakfast 35 DEM, half board 40 DEM, full board 45 DEM (pro person). Entrance fee 200 DEM (pro team - 4 persons).

Address of the Organizing Committee: Mr. Milan Horvat, Hotel »Trakoscan«, Trakoscan, Yugoslavia  
Tel.: 42-75-124; Telex: 23021; Telefax: 42-75-105.

# PRESS-RELEASE

The International Archery Federation (FITA) has an article in its Constitution (201d) that provides for the application of sanctions against any FITA archer who has participated in archery competitions that are not recognized, controlled, or directed by FITA or its Member Associations (registered by FITA). These possible penalties have never been imposed, but the threat of FITA penalties caused considerable concern to many competitors who wished to participate in competitions recognized by other archery organisations.

The 1989 FITA Congress approved the use of compound bows in FITA field and indoor competitions. On December 4, two actions (listed below) by FITA Council have cleared the way for compound bow archers to compete in FITA recognized field and indoor tournaments and all archers to compete in Field and Indoor archery tournaments of other associations.

1. The FITA Executive Committee (with the approval of Council) has, under article 201e of the FITA Constitution and Rules, decided to waive the application of penalties under article 201d against archers shooting compound bows in indoor, field, or bowhunter events organized by an archery association or club not affiliated with FITA. The rationale for this action is for the purpose of promoting FITA field and indoor archery. The FITA Executive Committee reserves the right to apply article 201d under any conditions deemed harmful to FITA or to Member Associations affiliated with FITA.
2. FITA Council also has granted amnesty to all compound bow archers who have previously been ineligible for FITA competition due to violation of FITA eligibility rules (article 202). The amnesty period will last until June 1, 1990, to allow time for this information to be communicated to all archers worldwide. After June 1, 1990 the current FITA eligibility rules will apply to all FITA archers. In 1987, when FITA Congress changed the eligibility rules, a similar amnesty period was granted for freestyle (recurve) and barebow archers.

The major impact of these two actions by FITA Council will be to open FITA competition for all compound bow archers who become affiliated with FITA or its Member Associations. FITA is the International Federation affiliated with the International Olympic Committee and is solely responsible for all Olympic Games, Regional Games, World Games archery competition, and FITA World and Continental Championships. National archery teams for these prestigious events can only be selected by National Archery Associations affiliated with FITA.

FITA Field Archery has offered barebow and freestyle (recurve) archers, and now will offer compound bow archers, the unequalled opportunity to be a member of their National Archery Team and compete in the FITA World Championship or World Games Championship under the sponsorship of the FITA Member Association of their country. The next FITA World Field Archery Championships will have compound bow divisions and will be held in Loën, Norway from 26 August to 2 September, 1990. This opportunity should create a rapid growth of FITA field archery in many of the 72 FITA member countries.

FITA Indoor Archery has offered freestyle archer, and now will offer compound bow archers, the opportunity to be a member of their National Archery Team and compete in World Indoor Championships. The first World Indoor Championship will be in Oulu, Finland on 12-16 March, 1991 and will have Freestyle (recurve) and Compound Divisions.

Compound bow archers interested in taking advantage of this new FITA amnesty offer or in FITA field and indoor archery competition, should contact the National Archery Association in their country that is affiliated with FITA.

## FITA/TWAC APPLICATION FORM FOR COURSE

1. Country
2. FITA member Association Name
3. FITA member Association Official Approval by:
4. Applicant Name
Address
5. Birthdate
Male Female
6. Applicant telephone fax or telex
7. Arrival date and time
method of arrival
8. Roommate, if preference
9. Qualification for this course: Describe experience as: Archery instructor
Archer
Teacher
10. Will you bring your own Archery tackle
11. Languages
12. How will applicant use what is learned at this course:
13. Willing to learn to become a staff Instructor at Kielce in future years?

### PLEASE SEND COMPLETED APPLICATION FORM TO:

Mr. Giuseppe Cinnirella,  
FITA Secretary General  
Via Cerva 30, 20122 MILAN, Italy  
Tel.: (39-2) 796038; Fax: (39-2) 780712

# FITA and its judges

by Donald M. Lovo, First Vice-President of FITA. President of the Judge Committee

If World Records, Star Awards and other international competitive Archery achievements are to be accepted by FITA as valid, there must be an assurance that these events were governed by a consistent set of guidelines. The responsibility of insuring these guidelines (rules of Competition) falls on the shoulders of FITA's Judges. The Judge Committee has fully recognized this responsibility to FITA and to that end have, for over 10 years worked diligently to insure the consistent and fair application and interpretation of our Rules of Shooting.

In 1979, when I took over this Committee, the majority of our Judges were from Europe, in many cases applying an interpretation of the rules that was peculiar to their own country (national rules). As you can well imagine, this caused some frustration to international visiting Teams when they were subjected to a different application of a specific rule. Some would say, »But that should not be, a rule is a rule – there can only be one meaning«. I wish that was so, but it is not – not in Archery, or for that matter, in any other organized association of people.

The Bible, for example, is a basic rules book for many Christian religions, each of them interpreting this Holy Book in a different and often diametrically opposed manner. The Courts of most all countries have specific laws of behavior, but every Judge and lawyer may see them in a different way.

The Judge Committee recognizes the potential variations that may cause problems and for that reason have established a fair and easily understood guideline for each controversial rule of FITA (and there are many!). It certainly must be made clear that this guideline established by the Committee is not the only interpretation that could have been established, but to maintain a consistency in Judges' decisions, it must be applied until Congress meets and either accepts or changes it.

Judges are not »rules makers«, they are the servants of the Member Associations through their decisions in Congress. They will diligently enforce the Constitution and Rules as established by Congress.

A very important fact to be recognized is that FITA Congress, consisting of one vote or proxy from each Member Association, is the supreme and ultimate rules maker of our sport. Each of these voting delegates, I hope, reflects the wishes of their Association. Equally important, if the current rules as applied by the Judges do not best serve the National Teams, then they must collectively make a motion and vote to change them.

A major Judge Conference is scheduled for the end of April in Antalya, Turkey. All FITA Judges are invited to attend. For the first time we will be able to obtain input from the large majority of FITA's Judges to stabilize interpretations in the best interest of our Member Associations, Officials and Competitors.

## FITA/TWAC Archery Instructor's Course

by Raoul Theeuws, Chairman of FITA Development and Technical Assistance Committee

Organized by FITA, the course will be given by the Director of TWAC, Dr. Marianne SCHUMM, and three regular TWAC instructors, assisted by the six European instructors who trained at TWAC in June 1989.

The purpose of the Operation is to start, under the patronage of FITA, the operation of an EUROPEAN ARCHERY CENTRE on the lines that have developed the years at TWAC and using TWAC's expertise in starting the program.

### Instructors

Maryanne SCHUMM	Head Director TWAC
Julia BOWERS	TWAC Instructor
Bud FOWKES	TWAC Instructor
Tony MURAWSKI	TWAC Instructor
Ingrid DEGROOTE	FITA/TWAC Instructor
Jerzy DRUPKA	FITA/TWAC Instructor
Alain LEFEVRE	FITA/TWAC Instructor
Alex MILINKOVIC	FITA/TWAC Instructor
Adam PAZDYKA	FITA/TWAC Instructor

### Who may apply

The course is open to those with teaching and/or Archery background wishing to become certified Archery instructor. The FITA member association of the applicant's home country must approve all applicants and the President or the Secretary General of the Participant's Member Associations must sign the application.

### Dates

August 14th, 1990: ARRIVAL  
August 15th–22nd, 1990: COURSE  
August 23rd, 1990: DEPARTURE

### Location

TRAKOSCAN ARCHERY CENTRE,  
TRAKOSCAN, YUGOSLAVIA.  
Mr. Milan Horvat, Director of hotel »Trakoscan«  
Tel.: 42/75-124, Telex: 23021, Fax: 42/75-105

### Course Outline

Archery safety;  
Demonstration & analysis of shooting techniques;  
Selection and maintenance of tackle;  
Shooting and coaching;  
Group teaching progression and practice;  
Instructing all ages in a community Archery class;  
School & camp programme content, organisation, opportunity for competitions, etc.;  
Interest stimulating ideas, novelty events;  
Examination.

### Language

The course will be given in English. Participants should have a working knowledge of English to obtain full benefit from the course.

### Costs

Applicants or their Member Associations are responsible to pay all their own expenses. The cost will be U.S. \$ 340 for the total course. This charge will include lodging, meals and the course tuition. A deposit of U.S. \$ 150 per the participant is required with each application.

### Deadline

All applications must be received by June 15th, 1990. Only thirty places are available. Each Member Associations may send up to three applications. However, if the course is overbooked, the number of applications per country will be reduced in order to allow more countries to participate. If a Member Association wishes to send more than three participants, the extra applications should be sent in marked »Alternates«. No deposit is required for these alternate.

### Certificate

An INSTRUCTOR'S CERTIFICATE will be earned by all participants who successfully completed the course.

# 4th Indoor »open« Target Championship of Europe and the Mediterranean

by Stan Patterson, FITA Vice-President  
Chairman of Technical Committee

The Greek Shooting Federation and his Archery Section was first welcomed into FITA only 6 years ago in 1983 but, in 1989, it was courageous enough to volunteer to host the 1989 Indoor of Europe & the Mediterranean. A task which was undertaken with flair and enthusiasm.

The event was staged in a wonderful »Peace and Friendship« stadium, itself only completed some six years ago, in Athens and it was an undoubted success. A success due first and foremost to the hard work and enthusiasm of those responsible for the organisation and, of course, to the band of dedicated volunteers who looked after scoring and the many other necessary tasks. The sight of the 30 young scores – all girls and all very smart in their standard of dress-running in and out of the stadium with perfect timing at each scoring end, from the beginning to end of the tournament, was only one indication of the effort which was being put in.

No expense was spared in the organisation of the event and I understand that the final cost was of the order of £ 114,000, a large sum of money by any standard which was no doubt part of Athens's Bid for the 1996 »Golden Olympic«.

65 Men and 49 Women from 20 countries assembled on 2nd December to shoot the 25 metre Round of the Championship and, as was to be expected, the standard of competition was extremely high, a standard which was going to be maintained from beginning to end.

The Men Leader Board after 9 arrows was a warning of what was to come with Heykers of Holland putting in 9 Tens and the 8th position showing 87, the Women Leader Board was only a little less impressive with Valeeva of the URS showing 88 and 8th position showing 85.

At the end of the first round of 30 arrows it was ...

Men: Verstegen (HOL) 297, Vandemeulebrouk (BEL) 294, Bjerendal Goran (SWE) the old stager on 294, Karavasiliyev (BUL) 293, Vermeiren, who had slipped badly after his start of 90, back in on 293. Heykers 292, Gusak (URS) 292 and Lippold (FRG) 8th on 281 ...

Women: Valeeva 289, Rozendaal (HOL) 288, Moloce (ROM) 286, Ericson (SWE) 284, Heinonen (FIN) 282, Nasaridze (URS) 281, Verstegen (HOL) 281 and Testa (ITA) 8th on 281 ...

Men Teams: BEL 873, URS 870, HOL 870, FRG 868, ITA 867, SWE 866 ...

Women Teams: URS 848, HOL 840, FRG 835, ITA 835, POL 827, FRA 823 ...

The 25 metre Round ended with some great shooting as the leaders tried to overtake each other. Verstegen put in a 59 to take the Record of 589 from D. Pace with 591 with final perfect end of 3 Tens. Lower down there were a few perfects to change the order of lead.

Men: Verstegen 591, Vandemeulebrouk 588, Bjerendal 583, Gusak 582, Zabrodski 581, Parenti 581, Eseev 579, Kahlert (FRG) 578 ...

Men Team: URS 1742, BEL 1735, ITA 1731, HOL 1727, FRG 1727, FRA 1726 ...

Women: Valeeva 577, Rozendaal 571, Ericsson 569, Moloce 568, Nasaridze 566, Hibon (FRA) 559, Butuzova (URS) (another old stager) 559, with Tzoneva (BUL) 8th on 558 ...

Women Teams: URS 1702, HOL 1677, ITA 1666, FRG 1664, SWE 1663, POL 1661 ...

There was an air of excitement on Sunday at the start of the 18 metre round. Would there be any changes? Would the leaders be able to maintain their »cool« as the tournament proceeded to its finale?

After 24 arrows there was no let up in the standard of shooting and one point lost could mean a drop of three or four places in the result lists. Tension was mounting as the tournament proceeded with the front runners proving their worth by holding off the challenge of those desperately trying to unseat them from the places on the Leader Board.

Men: Verstegen 822, Vandemeulebrouk 819, Gusak 818, Parenti 814, Bjerendal 813, Zabrodski 811, Barth shooting really well to climb up the board with 811, Di Buo (ITA) 809 ...

Women: Valeeva 808, Moloce 796, Rozendaal 796, Nasaridze 794, Ericsson 788, Kolesnikova 787, Butuzova 785, Heinonen 784 ...

At the end of the first 18 metre round there were few changes with Barth shooting strongly to work his way up the Leader Board.

Men: Verstegen 882, Gusak 877, Vandemeulebrouk 876, Parenti 872, Bjerendal 871, Barth 871, Zabrodski 870, Eseev coming back on 866 ...

Men Teams: URS 2613, BEL 2597, ITA 2596, FRG 2595 ...

Women: Valeeva 865, Moloce 853, Nasaridze 852, Rozendaal 851, Kolesnikova 845, Ericsson 844, Butuzova 842, Heinonen 840 ...

Women Teams: URS 2562, FRG 2509, HOL 2509, SWE 2498, ITA 2492, POL 2491 ...

The last 6 arrows of the tournament saw some magnificent shooting and there was a storming finish with the last three arrows and no less than five »perfect« ends on the mens side by Verstegen, Gusak, Barth, Gammelgaard and Parenti. The Women were only marginally behind with two »perfect« ends by Ericsson and Eksi (TUR).

Men: Verstegen 1172, Gusak 1168, Vandemeulebrouk 1164, Bjerendal 1163, Barth 1161, Gammelgaard (DEN) 1160, Parenti 1159, Eseev 1157 ...

Men Teams: URS 3480, FRG 3469, BEL 3461, HOL 3457, SWE 3454, FRA 3447 ...

Women: Valeeva 1156, Rozendaal 1140, Moloce 1139, Nasaridze 1135, Kolesnikova 1131, Ericsson 1129, Eksi 1123, Eichinger (FRG) 1123 ...

Women Teams: URS 3422, HOL 3357, FRG 3354, SWE 3336, POL 3327, TUR 3326 ...

The final verdict was ... An excellent tournament with very good organisation and a very friendly atmosphere. All credit goes to the enthusiastic band of helpers led by Nick Visvardis who was rarely seen outside of the stadium. Sure there were the odd hiccups but these were insignificant within the overall atmosphere prevailed.

I should imagine that the Greek federation has now whetted its appetite and we can look forward to them volunteering to organise a future outdoor championship.

Erwin Verstegen

## NEW WORLD RECORD by Willem F. Trienekens

Erwin, 31. 07. 1970, had his first contact with archery when he was eleven years old. Erwin accompanied his uncle to his club when he went there for a clubtraining-evening. He tried it once and soon became a member of the club »Doele Willem III« in Boekel, a small town in the south of the Netherlands.

The first few years passed by inconspicuously in the National Discipline, which is shot at 25 metres, indoor or outdoor and in that year he started with the FITA Outdoor Discipline at which an archer shoots one arrow each turn. The team consist of 6 persons, and the events are mostly about 25 arrows for each archer. This form of archery is known in the Netherlands for more than 150 years.

Until he was 16 years old he only shot the National Discipline, the breakthrough came when Erwin got a new bow, and in that year he started with the FITA Outdoor Discipline and on his first tournament in April he got his 1100 FITA STAR badge. Later on in the same year he became Junior Champion Short Metric (50 and 30 metres Outdoor, 36 arrows each) and Junior Champion in National Discipline.

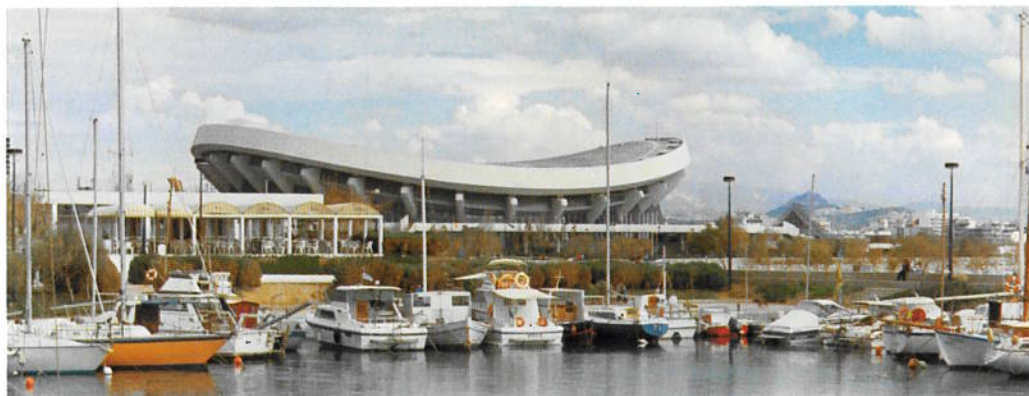

In 1987 he continued with his championships and reached the 1200 limit in May of the same year.

1988 took Erwin some steps further. He became Junior Champion FITA Indoor with a Junior Record of 578. He also scored a Junior record in the National discipline – 490 with 50 arrows at 25 metres. At the National Championships FITA Outdoor with seniors he finished as second with 1285.

In 1989 he was expected to reach the world top. Full of expectations and after many hours of training he participated in the World Championship in Lausanne. With a personal record of 1295 we had all reason to expect that he would be among the best 24 and so gain place in a finals. However, this went a little different. Although the 90 and 70 went all right, his good form didn't come out at 50 and 30 meters. With a score of 1265, which was quite good, the 44th place was a bit of a disappointment.

#### 4th Championship of European and Mediterranean Indoor Target Archery 1st-3rd December 1989 Athens (GRE)

### THE STAR IS BORN

Natalia Valeeva was born on 15th of November 1969, in Tyraspol, Moldavi Republic of the USSR.

She has been an archer since 1982. In 1985 Natalia was third in the Junior Championship of the Soviet Union.

She is Women Champion of the USSR in 1989 with best result in Grand FITA Round - 1308.

Natalia is a worker, and dreams to enter the college next year. Single, she lives modestly with her mother, who is also a worker.

The only hobby is table tennis.

Natalia is very serious during everyday trainings. Average number of shots in one day is 150. She thinks that for good result very important is the psychological preparation - all in training process must be very similar to tournament conditions.

She shoots with the Soviet bow fitted with Yamaha limbs - 66# and 35 lbs. Arrows: Easton XX 75 1813 Length 69 cm = 27".

Natalia will do everything to come to Barcelona - twice!!! 1990 + 1992.

In August he got his 1300 STAR and at the beginning of September Erwin became Dutch Champion with the excellent score of 1306. At the end of September the big bang: a new Dutch record of 1335!!!

And then came the European Championship Indoor in Athens. We know he was strong and counted him with the 5 best. Then a World Record on the first day! 591! What was there to be expected of the second day then? To hold that lead, to slowly be gained on, then hold that 3 points. After the last round he had 4 points more than number 2 Gusak from the Soviet Union. Erwin became not only the World Record holder, but also the Champion of the »OPEN« EUROPEAN AND MEDITERRANEAN INDOOR ARCHERY CHAMPIONSHIP in Athens 1, 2, 3 December 1989.

Reviewing his career as an archer it is important to know that Erwin is a person who sorts out things by himself. Good advices O.K., but Erwin doesn't adopt them if he isn't convinced. He wants to do everything by himself, also to observe others – yes, but for the rest, try and try again. This method is not unfamiliar to him, as a student at a Technical Highschool he is used to doing research.

It is interesting to know that Erwin has a sister, named Christel, 16 years old and who also participated in the European and Mediterranean in Athens. She became 20th with 1100 and 2nd with the Dutch ladies team. Her personal FITA record is 1244 points. Undoubtedly we shall hear of her again. Erwin sorts things out for himself: of course he will also do that for his sister.

# 4th Junior Championship of Europe and the Mediterranean

## A BIT OF A BLOW

by Don Stamp, FITA Council Member Chairman Target Archery Committee

Jenny Sjöwall

»I'm from Karlstad (Sweden). I have been shooting since 1981. My father has trained me almost all these years. I shoot when I feel like it and that's usually every day. I also run or swim during the summer ... or cycle. I'll start skiing as soon as we get enough snow.

I do most physical training during the indoor season, because I don't find indoor shooting as fun as outdoor.

I work part time at a bank and that's perfect because I can practice in the afternoons and evenings if I want too. I am now training for the European Championship in Barcelona in 90, the World Championship in Poland and of course the Olympic Games in Barcelona 92. My hobbies are many!!! I like to run, play volleyball, table tennis, skiing etc. ... I don't have so much sparetime but when I have than I go with my friends to do these things or something else. I love to have fun and laugh, it really makes me feel great and comfortable while shooting!!!

I was Junior European and Mediterranean Champion in 87 and 89. 5th place in Seoul Olympic in 1988, Second place in team at World Championship in Lausanne in 1989, 4th place in the 88 European Championship in Luxemburg.

My bow is HOYT TD4, 38# 68, Arrows ACE 850 26, 1/4 with Spinwing vanes".

String: 18 strings Superflight, Serwing Brownell N° 4  
Nock: Beiter Nocks (small)  
Sight: Acra 300  
Stabilization: Carbofast and Swing-bar  
Button and arrowrest: Cavalier  
Clicker: Beiter  
Tab: ABC and fingersling

After glorious weather in preparation for the event, it was disappointing to the young archers to be faced with strong head winds on the first day and even stronger winds and rain on the final day. However, the Field party did a magnificent job in keeping all targets secure. Ironically, when the day came for departure, the weather had improved again.

Though disappointing, in no way did this daunt the spirits of the competitors, the best of whom shot brilliantly in the conditions. Jenny Sjöwall of Sweden, fresh from a very good performance in the World Championships in Lausanne, retained her European Junior Championship with 1242, with Natalia Nazaridze (URS) second with 1225, and Alison Williamson from Great Britain taking bronze with 1187. Since the latter shot 1301 a week later, one can gain some idea of the conditions.

Among the young men there was a very close competition, with places changing from end to end. The victor was Sebastien Flute (FRA) with 1163, closely followed by Ralf Müller (FRG) with 1161 and Jouri Alexeev (URS) with 1160. The 89 competitors from 19 countries with their officials enjoyed their stay at Bedford College of Higher Education, which provided all facilities, including the good practice and tournament fields, on the same site. It also had the advantage of being quite inexpensive.

There were several innovations at this tournament, including the two Champions' Challenge trophies accepted on behalf of FITA by Roul Theeuws, donated by the ancient archery livery companies of Fletchers and Bowyers. Another first was the use of simple registration numbers as back numbers. No problems occurred in enabling archers to know their target number and order of shooting, because every table where archers were seated while waiting their turn to shoot displayed the list of archers with their target order, changed according to merit on the second day. The score boards stood up well to the rough weather conditions, being of plastic design stretched over a strong metal frame, the letters and figures securely placed in pockets. All participants had amongst their gifts, a coloured umbrella.

All the teams were persuaded to sign their names on arrival, so that at the final dinner and disco, all could be given an attractive memento sheet showing all those who took part.

All in all, the organisers ably led by Stan Patterson, and the hard-working party of volunteer helpers, did a good job in staging a memorable event, taking in their stride weather difficulties, computer problems, rail strikes and the like, so that the archers could do their best and make friends with their hosts and each other. The Australian came as visitors to the event and performed well. The next event in Norway in two years' time will be the first Junior World Championship with, no doubt, some very talented newcomers.

#### 4th Junior Championship of Europe and Mediterranean Outdoor Target Archery 28th - 30th July 1989 BEDFORD (GBR)

Sébastien Flute

#### HE INSPIRES HOPE

by Laurence Frère

The second Frenchman, after Luc Ruhlmann in 1983, is on the list of these who were awarded on the European Junior Championship of Olympic archery, organised in last July in Bedford. Sébastien FLUTE is certainly one of the French archery greatest hopes for Barcelona '92.

Although only 17 years old, this young Frenchman, born in Brest, knows what he wants: succeed. After he, with only 12 years, started with archery, his progress has been really spectacular. Many times the champion of France in his age category, has enlisted himself among the best Frenchmen and has gained a great advantage in a senior team selection by taking part in the European Indoor Championship in Athens, where he was on the 23rd place.

At the beginning of the school - year he left Bretagne, where he was born, in order to train and to continue his education (he is in the first), in the section of high-degree INSEP in Paris. When shooting, Sébastien is very easily recognised by his swift action, either when he shoots or when he goes to the target and returns. No wonder, he is a complete sportsman, of a reserved nature, a fan for jogging and climbing. He is of average height, thin but of very strong appearance, which reminds of his elders McKinney or Barrs. Sébastien Flute has the profile of the new generation of archers.

In Bedford, his trainers expected good results: the title of the European Champion which he gained thanks to his persistence and his composure. Together with team victory, all that filled them with joy.

In the meantime, he has a long way to Barcelona '92, and at that time Sébastien Flute will be only 20 years old.

## LOËN

Loën, a small village on the west coast of Norway will be the site of the forthcoming Field World Championship. Organizers are promising a very well organized Championship with a lot of fun.

The event will take place near hotel »Alexandra« which was the host of the 1987 Nordic Field Championship. The hotel is situated on the coast of one of the most beautiful fjords of Norway and the whole region can offer a lot of sightseeing tours.

We do hope that most of you will stay in »Alexandra« and make the Championship look like the »family of the archers« which is also our wish. Living under the same roof, making new friends, talking about bows and arrows would bring us closer.

Although the hotel prices are acceptable you may wish to stay elsewhere in which case the organizers will do their best to help you.

Welcome to Loën and Norway.

20.00 Banquet at Hotel Alexandra

Sunday 02/09  
Departure

# ...The 1989 Trakoscan Grand Prix

by Nikola Skoric, FITA Vice-President and Chairman of the FITA Field Archery Committee

In June 1989, Trakoscan (YUG) was in the full sense of the word the world's archery centre. FITA, with the support of the Olympic Solidarity and well known FITA experts Mr. Raoul Theeuwes (BEL), Mrs. Sheri Rhodes (USA) and Mr. Rick McKinney (USA) organized the Regional trainers' course with 30 participants from 10 countries. FITA Development and Technical Assistance Committee and Olympic Solidarity can be proud of this third-degree course, as on those held in 1987 and in 1988.

Don Lovo, the First FITA Vice-President and Don Stamp, President of the FITA Target Committee gave a very successful seminar for international judges. Sergej Markic, Alojz Mauser and Nenad Slukic, three Yugoslav judges, passed the exam successfully and became candidates for the International judges. Two Dons presented exceptional lecturers to the participants of the Regional Course on judging and some novelties in target archery. All that contributed to the high quality of the Regional Course.

A week before the Test Field Tournament was held, FITA STAR Tournament took place and it was also very successful. In women's class the first was Julika Dimitrakopoulou (GRE) with 1247 points and Rick McKinney (USA) won the men's class with 1326 points. A record was expected on 30 metres event, but Rick finished with "only" 357 points!!

Since the Congress in Lausanne has given new rules for the FIELD Archery we should not raise dilemmas stated on the meeting after the Test Tournament in Trakoscan. However, the Test Tournament was an important stage and played a special role towards the decisions made at the Congress. Conclusions of that meeting were good markers for the new rules proposals although the Congress did not except all of them and made some questionable decisions. Due to that the Test Tournament fulfilled its expectation.

The winners in different disciplines (without finals) are following: Veteran Bare Bow: Peter Price (GBR) 890; Veteran Compound Lim.: Ivan Misjak (YUG) 526; Women Veteran Free Style: Yvonne Gavin (AUS) 878; Junior Women Free Style: Danielle Schwanen (HOL) 924; Junior Women Bare Bow: Christa Lindquist (FIN) 745; Junior Men Compound: Jeroen Koppelman (HOL) 986; Women Compound: Ann Rochford (GBR) 988; Veteran Men Free Style: Fred Gavin (AUS) 1006!!!

The winners received nice prizes and Grand Prix Trakoscan is to become a traditional tournament in the years to come. Welcome to 1990 Grand Prix in Trakoscan.

## Your invitation to the XIth World Championship in Loën

We have the honour of inviting you to attend the World Field Archery Championships in Loën from 26th August to 2nd September 1990.

We sincerely hope that you all take part in this event, as the championships will be accomplished according to the new FITA Field Archery Rules, adopted by Congress 1989, and thus enter upon a new era within archery.

We can assure you of our best attention to make your stay in Loën a pleasant and memorable experience.

For your information: Based upon the decision of Congress that FITA shall no more have the responsibility of organizing regional championships in field archery, the Loën event will therefore **not** comprise any European Championship.

For practical reasons, the Organizing Committee has already sent to all the National Archery Federations their invitation to participate in this competition. The Federations not yet having announced their participation to the Committee may do so; the utmost will be done to fulfill all requests.

Nonetheless, each FITA national member Federation will receive the preliminary registration form within the time delay specified by article 408 b) of the FITA Regulations.

The Organizing Committee

by Rade Milinkovic, Secretary General of the Yugoslav Archery Association

**Target archery  
outdoor  
26 - 29 April 1989  
Antalya (TUR)**

The 6th Balkan Archery Games were organized by the Turkish Archery Association in Antalya, a nice town on the Mediterranean coast with mild climate and lot of historical monuments and traditional crafts. All the participants and judges were accommodated in a beautiful tourist resort Al Alda famous for its picturesque coast, clear sea and numerous swimming pools.

The First FITA Vice-President, Mr. Don Lovo, Mr. François De Massary, the President of the European and Mediterranean Association, high representatives of Turkish ministries of culture and sports and the Lord Mayor of Antalya and many other very distinguished guests honoured the tournament with their presence. They were met with warm hospitality and attended memorable and other lively friendly gatherings during the evenings.

The tournament was held close according to the programme of the Balkan Games: first two days were FITA round, and the third was a GRAND FITA Round for the teams. A tribute should be paid to the organizer for the excellent organization of the tournament.

This enabled a few individual archers as well as few teams to reach several new Balkan records, both in FITA round and at different distances.

All the participants were very satisfied with the results they achieved at the tournament, with the gala award ceremony and they expressed their big gratitude to Dr. Ugür Erdener, the President of the Turkish Archery Association for the excellent organization.

The 6th Balkan Archery Games may therefore set as an example to all future organizers.

Mario Codispoti (ITA), coach of the Turkish Archery Team.

## ANNOUNCEMENT

*FITA Council has approved Associate Membership for archery manufacturers. Manufacturers interested should apply to the Secretary General for an application form. Associate Members will also be able to purchase a limited amount of full page advertising space in the FITA Bulletin, beginning with the next (N° 43 – September 1990) issue. Please contact the Secretary General for forms and rates.*

*The reproduction of our articles and news is not only authorized but welcomed. We should, however, like to receive a copy of publications reproducing one of our texts.*

*The Official Bulletin of the FITA is also published in French.*
