World Archery

Development Department

KIM Soo-Nyung (KOR) has started internship project with the World Archery Development Department since 1 November 2011. This project could last up to two years and is supported by the Nest Foundation (Korea Foundation for the Next Generation Sports Talents).

She will act as a Development Coordinator, collaborating with Mrs Deqa NIAMKEY and the Development and Education Director Mr Pascal COLMAIRE. She has already started to look after the equipment assistance programme from World Archery. After some training from World Archery she will run some projects in Asia on behalf of World Archery.

Working as a Media Director at Ulsan 2009 World Championships

KIM Soo-Nyung was a member of the South Korean Olympic archery team in 1988, 1992, and 2000. She has earned a total of four gold medals, including the individual gold medal in 1988. She also won two consecutive individual and team World Championships in 1989 and 1991. After the 1992 Barcelona Olympic Games, in which she won a silver medal, she retired to take care of her family. She resumed training in 1999 in the lead-up to the 2000 Sydney Olympic Games in which she won the individual bronze medal and her third team gold medal. She is the most decorated Olympian in Korean history. In 2011, KIM was declared the Female Archer of the 20th Century by the World Archery Federation.

After an incredible career as an archer, she has declared she wants "to strive to serve archery the best I can". She is a tremendous example of dedication to our sport.

Management Seminar

In line with the World Archery World Plan 2007-2012 and with the aim of empowering their Member Associations, World Archery held a Management Seminar on 18-20 November 2011 in Lausanne, Switzerland for around 50 participants from 30 countries.

World Archery Member Associations need to be pro-active in developing new skills as well as to be receptive to new ideas and methods which are necessary in the continuously evolving world of archery administration. Therefore, the Management Seminar aimed at the chief executive officer of the Member Associations, mainly General Secretaries, CEO's and/or Presidents depending on the size and structure of the federation.

The objective of the Seminar was to strengthen the networking between Member Associations by sharing successful stories and concrete projects that can be replicated in other countries in order to increase the management efficiency of World Archery Member Associations. The participants were split in four small groups in order to facilitate the exchange among them. The groups rotated on the four workshops: General Management, Marketing & Business Development, Communication & PR, and Development & High Performance.

The participants made this seminar a success! Amazing success stories have been shared, as for instance:

- The strategic planning and restructuring of the South African National Association
- The social network strategies and activations in the USA (Facebook, Twitter, etc.)
- The partnership and involvement of archers in billboard advertising with Coca Cola and Visa in Chinese Taipei
- The commercial development of the Nimes Indoor European Tournament (Archery World Cup Indoor Stage) during 18 years
- The development of archery in Bangladesh
- The international tournament for standard and bamboo bows in Benin
- The high performance evolution in sports, and in archery in particular

The participants also enjoyed some plenary presentations from other sports organisation such as the Olympic Solidarity, the Hockey International Federation and the World Taekwondo Federation.

Phone: +41 (0)21 614 30 50
Fax: +41 (0)21 614 30 55
Email: info@archery.org
Website: www.worldarchery.org

A total of 31 presentations or case studies have been shared among the participants. All of them will be put on a web platform soon.

The seminar also meant a jump-start for the World Archery Plan 2012-2017, which aims to further develop the Member Associations, to transfer knowledge and experience between the World Archery members.

World Archery Secretary General Tom DIELEN said: "We are delighted with what the participants brought to this seminar. We have heard incredible success stories, some from Member Associations that have very little resources. Now, we all need to go back to the office and work on what we have learned from each other. And don't hesitate to contact us or other participants from the seminar if you need help in a particular topic. Together, we can make our sport bigger!"

The World Archery Management Seminar 2011 was delivered in collaboration with the Education Partner, SINERGI Sports Consulting (www.sinergi.ch) and was funded by the International Foundation for the Development of Archery (FIDTA).

Anti-Doping Administration

World Archery is happy to announce that they have decided to outsource their anti-doping administration to SportAccord as of 1 January 2012. Whereas World Archery remains fully responsible for every aspect of the anti-doping programme, the staff of SportAccord's Doping-Free Sport Unit (DFSU) will handle the administrative aspects on behalf of World Archery and work in close cooperation with World Archery to do so.

Therefore, World Archery kindly requests their Member Associations to take note of these changes and only use the contact details below to communicate with World Archery on anti-doping matters:

- For organisations with testing programmes, to liaise with sample collection agencies for in-competition testing at World Archery competitions in their country and to ensure the Doping Control Forms (DCFs) related to any such tests are forwarded to the correct address
- For national federations having athletes in the World Archery Registered Testing Pool (RTP), to ensure that they submit their whereabouts in ADAMS and that the relevant Therapeutic Use Exemptions (TUEs) are submitted.
- For RTP athletes, to ask for help regarding ADAMS and the whereabouts requirements or any other doping related subject

Congress Award

During its Congress held in Turin, Italy on 1-2 July 2011, World Archery awarded a special award to Klaus Dietrich SCHULZ (GER). The "father" of the FITA Rule Book for a long time received the title of Honorary Chairman of the Constitution and Rules Committee.

As Klaus SCHULZ was not present in Turin to receive the award from World Archery, the German Shooting Federation (DSB) chose the closing festivities of the 150th anniversary of their foundation in 1861 to hand over the award to him. He was received on Friday night, 18 November with a reception and a solemn ceremony in Coburg at the castle of their protector the Duke of Sachsen Coburg and Gotha in front of selected guests.

As the last point of the ceremony Josef AMBACHER, President of the German Shooting and Archery Federation, explained to the audience why World Archery had conferred this distinction on Klaus SCHULZ and handed over the award to him under general applause.

"I feel very honoured by the award conferred on me by the Torino Congress. I was completely surprised by this recognition and felt deeply touched. Now I am grateful and proud of the fact that World Archery appreciates my contribution to archery so highly. Working for FITA, for World Archery has enriched my life", Klaus SCHULZ said.

Future Events

World Cup 2012 Stage 3

Easton Sports Development Foundation will host the Archery World Cup 2012 Stage 3 at a new venue, the Golden Spike Event Center in Ogden, Utah. The World Cup event and Final Olympic Qualifier for Teams and Individual is scheduled on 17-23 June. Prior to hosting the event at the Golden Spike Event Center, the competition was held at Weber State University (WSU). This year Promontory Towers at WSU are scheduled for demolition.

The Easton Foundations believe they carry a responsibility to provide the athletes with a competition venue that is free of all possible distractions during this important event. It may not be possible at Weber State University with an ongoing construction project across the street from the competition field, so a new location has been decided upon.

"This decision has been a difficult, since the Foundation has enjoyed a wonderful relationship with Weber State University. We feel the location change is in the best interest of the athletes who are attending. Many of the athletes will not only compete in the third leg of the World Cup in Ogden, but will also compete in the Last Chance Olympic Qualifier, where those teams that have not secured a spot in the 2012 Olympics in London will have their final opportunity to do so," said Robert ROMERO, Local Organising Committee President. "The Easton Foundation would like to thank the Weber State staff for their efforts in making previous Archery World Cup events so successful."

Asian Games 2014

World Archery has been informed by the 2014 Incheon Asian Games Organizing Committee (IAGOC) that a compound event will be included in the competition programme together with recurve. The next Asian Games will be held from 19 September to 4 October 2014 in Incheon, Korea. The archery competition will be conducted in the form of a Qualification Round followed by an Olympic Round for Recurve and the Compound Match Round for Compound.

For the first time compound will be included in the competition programme. Therefore, there will be eight archery events altogether in the Incheon Asian Games including recurve men and women individual and team as well as compound men and individual and team.

The official website of the competition is www.incheon2014ag.org.

World Archery 3D Championships 2015

World Archery has received bid interest from the French Archery Federation regarding the 2015 World Archery 3D Championships. We remind all interested parties that further information on bidding process can be found on our website: www.worldarchery.org, section World Championships > General > Bid Documents.

If you need any further information or if you are interested in bidding for any event, please contact the World Archery Event Director Juan Carlos HOLGADO at jcholgado@archery.org.

Past Events

Parapan American Games

The Parapan American Games were held from 19-27 November 2011 in Guadalajara, Mexico. The archery competition ran from 15-17 November. Find all results on www.worldarchery.org, section Para-Archery > Events > Other Events, or at <http://parapan.guadalajara2011.org.mx>.

Marrakesh International Indoor

Morocco hosted the 2nd International Indoor Archery Tournament in Marrakesh on 18-20 November 2011 under the theme of "Arrows of Peace". The hosts were very pleased by the success of this three-day event. It was truly a unique way to start the world indoor archery season.

"The event has been enriched by participants from Africa, Asia and Europe represented by seven countries (Morocco, Algeria, Belgium, France, Iraq, Netherland and Switzerland) including top level archers like Thomas AUBERT (FRA), Sarah PRIEELS (BEL), Michael CAUWE (BEL), Christophe DOUSSOT (FRA) and Pascale LEBECQUE (FRA), plus participation of the two professional photographers Dean ALBERGA (NED) and Jean-Denis GITTON (FRA)", said Meriam EL MAHIRI, President of Association Club Arc de Marrakech De Tir à l'Arc—the event organiser.

Many archers who joined last year's competition also participated this year and are looking forward to the next tournament in Marrakesh in 2012. After three days of competition, the following winners were determined in exciting gold medal matches: Thomas AUBERT and Ellen LEBECQUE from France in the recurve division and Michael CAUWE and Sarah PRIEELS from Belgium in the compound division.

What makes this competition unique is not only the very warm welcoming, hospitality and professional organisation, but also the cultural programme organised for all participants. After a

sightseeing tour on Friday, the archers discovered the wonderful and magnificent city of Marrakesh, the "Pearl of the South", in horse-drawn carriages on Saturday, culminating in a big colourful closing party in a typical Moroccan restaurant including many traditional music and horse riding shows on Sunday.

"With 51 participants from seven different nations, the Organising Committee has come a big step closer to its goal of giving this tournament a really international atmosphere", added Meriam EL MAHIRI.

For more information about the tournament and results, please visit: www.marrakesharchery.com

Para-Archery

World Ranking

The new World Ranking lists for Para-Archery have been published as of 18 September 2011 and can be found on www.worldarchery.org, section Para-Archery > Events > World Ranking.

Mongolian Archery

Olympic Solidarity (OS) awarded two scholarships for Mongolian archers for their London 2012 Olympic preparation. Also in 2009 a coaches' scholarship was given to the Mongolian head coach Badamkhatan TSOGT.

The World Archery Development Department was contacted by the Mongolian National Olympic Committee (NOC) to inform them of the qualification of two archers for the upcoming London 2012 Olympic Games. Mongolia's last qualification for the Olympic Games was in 1996 for Atlanta. "This is a tremendous success for Mongolia Archery", said Otgontsagaan JUDGER, Secretary General of Mongolian NOC.

The team is training at the moment in Erdenet which is about 350km from the capital city, Ulaanbaatar. Erdenet is very well known for its mining industry which is also the main sponsor of the Mongolian Archery Association. Badam TSOGT's (head coach) programme is mainly based on general conditioning and specific training, as well as some technical shots, development and daily training on the field. TSOGT was awarded "BEST COACH" in 2008 by the President of Mongolia.

The first gold medal in Mongolian sports history was in archery. Doljin DEMBEREL won a gold medal at the World Championships in 1971 in Knavesmire, York, United Kingdom. World Archery (still FITA at that time) awarded gold medals to the highest score shot at each distance (72 arrows) of a Double FITA Round. DEMBEREL scored 641 points at 30 metres, which was the highest score at the distance, and thus she won a gold medal.

World Archery would like to express its gratitude to the OS and Mongolia NOC for their tremendous support in the development of our sport.

Equipment Assistance Programme

World Archery along with Development partners can assist some Member Associations (MAs) to obtain archery equipment at favourable conditions in the frame of assisting those MAs in putting in place their development strategic plan. MAs who wish to benefit of this assistance are required in the first place to send their strategic development plan to World Archery: pcolmaire@archery.org.

The MAs that submit such a plan will then be added to the World Archery world list of eligible countries to request the archery equipment assistance programme. You may consult this list at www.worldarchery.org, section Development > Start Archery.

The MAs that require assistance to prepare their development strategic plan can find some examples from other MAs at the bottom of the same World Archery web page mentioned above.

This assistance programme will vary based on the project interest and consistency to put in place the strategic development plan but also on what the World Archery development partners can offer. The partners offer 10% discount on the distributor price but also donations. For any further information on this programme, you are requested to contact Pascal COLMAIRE, World Archery Development & Education Director at pcolmaire@archery.org.

European Coaching Course Conductors

The second leg of the European training of Coaching Course Conductors in archery will take place from 22-26 April 2012 in Compiègne, France. The programme began with a course from 28 February to 5 March 2011 with the participation of 14 candidates: one from AUT, ROU, HUN, ISR, FRA, CYP and two from EST, CRO, IRL and GRE.

World Archery with the assistance of EMAU will conduct this programme thanks to the financial assistance from Olympic Solidarity and the European Olympic Committee. André KORLAAR (NED) and Pascal COLMAIRE (World Archery) will conduct this project.

The participants from the first edition had to submit a report on the preparation of a level 1 archery training programme to the experts. They will also have to be able to conduct this course based on the feedback they received from the experts. Additionally an evaluation report of the Coaching Course Conductors will have to be given by the candidates.

Member Associations

Chad

A training of 13 entry level coaches and judges took place from 8-12 November 2011 in N'Djamena's stadium Onasport. This training was focused on the manufacture of arrows in bamboo, the setting of feathers on the imported shafts, the manufacture of the ropes of a bow and how to take in hand a group from six to twelve archers.

String manufacturing

Competition

On the last day the participants could take part in a competition shooting 36 arrows at 15 metres. At the end of the round, the best four have competed in head-to-head matches and the best were rewarded.

At the closing ceremony, the Assistant Secretary of the Minister of Sports showed interest in this training of how to make arrows by means of local material. This allowed the sport of archery to be more visible to the public and she promised the support of the Ministry of Sports.

Thailand

At the South East Asian Archery Federation (SEA.A.F.) Congress taking place on 16 November 2011, Mr Sanguan KOSAVINTA, President of the National Archery Association of Thailand and World Archery Vice President, was re-elected as the SEA.A.F. President for a third 4-year term (2011-2015) with 100% support from all Congress participants. Maj. Jamil BAHARUDDIN (MAS) is the Secretary General and Simon LEE the Treasurer of SEA.A.F.
