Para archery

Assistive device

The para archery committee, in cooperation with the classifiers committee, has proposed a new [list of assistive devices](#) permitted during the classification process, simplifying many of the definitions. Under rule 11.1 of the *Classification Code*, national federations and National Paralympic Committees have until **31 January 2022** to give their input. The executive board will then take a final decision. If approved, the changes would come into effect in March 2022 (after the para championships).
