Welcome by the
Secretary General

Reminder – payments and transportation information

- **World Archery Para Championships** – Pilsen, CZE
- **World Archery Championships** – Berlin, GER
- **World Cup IV stage** - Paris, FRA

Our organisers are struggling financially because of late payments and lack of information. This is becoming a major problem and brings in danger the success of the events.

Reminder – number of officials on the Field of Play

- Since the start of the season, the rule has been strictly applied and several of the countries had their officials access removed from FoP for one day or in case of repeated violations for the entire event.
- The rules apply to everyone. The staff and judges who implement this are doing their job and should be respected. If not, there will be further consequences.

Athlete representatives are not elected in Congress, but at World Championships by competing athletes.

In 2023, following nominations have been submitted:

- World Para Archery Championships – **para athlete** – Eric Bennett (USA)
- World Championships – **recurve men** – Bernardo Oliveira (BRA)
- World Championships – **recurve women** – Crystal Gauvin (USA)

Research survey for athletes - Harassment and Abuse in Sport

The Association of Summer Olympic International Federations (ASOIF) has initiated a pilot research study into the prevalence of harassment and abuse in elite sport. Six international federations are participating in this study of which one is World Archery.

Data collection - a survey for athletes - will take place at during the following events:

- 2023 World Archery Para Championships, Pilsen (CZE) / contact on site: Siret Luik
- 2023 World Archery Championships, Berlin (GER) / contact on site: Crystal Gauvin

Federations and team managers are asked to share this communication with their athletes, coaches and entourage participating at these events. The survey is only for athletes, but if team managers or coaches would like to know the questions and content of the survey, please contact Siret Luik by email: safeguarding@archery.sport

The success of this project is strongly dependent on the communication within the teams. Thank you for your help in encouraging athlete to take the survey.

Motion 13

Articles: Book 2, Chapter 4, Articles 4.5.1 and sub-articles

Submitted by: Para archery committee

Summary:

Editorial: Clarification on para archery doubles round and that para archery does not have teams. Not changing the rules, just describing the rounds in a different location in the rulebook.

Text:

Multiple articles involved, too long to include full text. Check the motion [here](#).

Reasoning:

The rounds for Para-archery are defined in the Book 2, in the same section that the able bodied competitions.

The Para Committee wishes that the competition are, when possible, in the same format for para-archers than for able bodied.

The change in teams for Para-archer (doubles instead of team of 3 archers) has to be considered in the text.

The proposal is to clarify this and to update the rule accordingly.

Motion 14

Articles: Book 2, Chapter 4, Article 4 (various)

Submitted by: Field and 3D Archery Committee

Summary:

For field and 3D archery: Change in the system of shooting eliminations - removing pools and keeping head to head matches.

Text:

Multiple articles involved, too long to include full text. Check the motion [here](#).

Reasoning:

The introduction of the pool system has included head-to-head matches after qualification. It was designed to give those who shot better in qualification a benefit in the next round.

Since its introduction it has found to be hard to understand for some and complicated to run. The head-to-head element is enjoyed, and this proposal is designed to remove the complex system of the pools and keep the excitement and challenge of the head to head.

Motion 15

Articles: Book 2, Chapter 4, Articles 4.5.3.3.12. and sub-articles

Submitted by: Field and 3D Committee

Summary:

For field and 3D archery - allowing top 8 teams (instead of top 4) to shoot mixed team matches.

Text:

Multiple articles involved, too long to include full text. Check the motion [here](#).

Reasoning:

The mixed team was introduced with only the top 4 teams to trial the event. It has been a success. This change is to allow more countries to shoot in the mixed team event providing more coverage and opportunities for the smaller nations to participate.

The order of articles is changed for readability reasons.

Motion 15 - AMENDMENT

Articles: Book 2, Chapter 4, Articles 4.5.3.3.12. and sub-articles
Original by: Field and 3D Committee
Amendment: Austria

Summary of amendment:

Adding articles concerning 3D archery which was also the intent of the committee. Read full amendment [here](#).

Field and 3D Archery Committee supports this amendment.

Motion 16

Articles: Book 2, Chapter 4, Article 4.5.6.2.8
Submitted by: Field and 3D Archery Committee

Summary:

Changing 3D archery team composition from three to four to include all different bow categories.

Text:

The Team Elimination Round (quarter-finals) consists of the top eight teams in each class qualifying from the two Qualification Rounds shooting four targets each: A team shall be made up by one Compound athlete, one Longbow athlete and one ~~athlete using either a Traditional~~ **athlete** ~~or a~~ **and one** Barebow. The team ranking shall be based on the best athlete's results for each category after the second Qualification Round. ~~(If both the Traditional and the Barebow division are competing the higher result shall be taken for the ranking);~~

Motion 16 - AMENDMENT

Articles: Book 2, Chapter 4, Article 4.5.6.2.8

Multiple changes related to longer shooting time and other aspects. Read the full amendment [here](#).

Field and 3D Archery Committee does NOT support this amendment.

Motion 18 – withdrawn (bylaw, not a law)

Articles: Book 3, Chapter 13, Article 13.2.2, Bullet 5

Submitted by: French Archery Federation (FFTA)

Summary:

Allowing all para athletes to stay on the shooting line (not only for wheelchair athletes)

Text:

~~Wheelchair~~ **Para classified** athletes may stay on the shooting line throughout the match. They indicate that they have finished shooting by raising a hand above the head (see Chapter 21 - Para-Archery);

Motion 19

Articles: Book 4, Chapter 22, Articles 22.1.9

Submitted by: Field and 3D Archery Committee

Summary:

Clarifying the use of binoculars for field and 3D archery.

Text (too long to include all, but new text would read as follows):

Add as Law:

22.7.1 Binoculars, scopes and other visual aids may be used subject to the following.

Add as Bylaws:

22.7.1.1 Binoculars, scopes and other visual aids may not have any visible scales or marks that can be used to range distances. Marks must be covered so that they cannot be seen or felt by the athlete, this includes those placed by manufacturers if they move when the focus dial is turned.

22.7.1.2 Prescription glasses, shooting spectacles and sunglasses may be used. None of these may be fitted with micro hole lenses, or similar devices, nor may they be marked in any way to assist in aiming.

22.7.1.3 Should the athlete need to cover the non-sighting eye and or glasses lens, plastic, film or tape may be used to obscure vision, or an eye patch may be used.

Motion 20

Articles: Book 4, Chapter 22, Article 22.6 and sub-articles

Submitted by: Field and 3D Archery Committee

Summary:

Clarification on use of mobile communication on the course.

Text:

Multiple articles involved, too long to include full text. Check the motion [here](#).

Reasoning:

The promotion of the sport is vital. Mobile phones provide an instant way of communicating to social media what athletes are doing and how the sport is accessible to all.

To permit the use at non WRE or Continental and International events allows this promotion to transmit the sport and increase participation.

The restriction to events excluding WRE/Continental/International events, follows the line drawn in target with differing timing and stoppages between WRE/World Cup events and all other events.

Motion 21

Articles: Book 4, Chapter 23, New Article 23.7

Submitted by: Field and 3D Archery Committee

Summary:

Clarifies that coaches are not allowed on course for qualification and elimination and only in specific area for finals.

Text:

23.7. There is a limited access for coaches to courses during field and 3D rounds as follows:

RELATED BYLAWS:

23.7.1 There shall be no coaches permitted on qualification or elimination courses. Coaches must remain outside the boundaries set by the Technical Delegate.

23.7.2 Coaches are permitted on the finals field, however must remain in the coach area defined by the Technical Delegate unless required to shade the athlete and permission from the Chair of Judges has been granted prior to the session commencing.

Motion 22

Articles: Book 4, Chapter 25, Articles 25.3.2, 25.3.3 and Related Bylaw 25.3.3.3

Submitted by: Field and 3D Archery Committee

Summary:

Changing time limit for mixed team shoot offs to 80 seconds to both field and 3D rounds (instead of 120 / 90 seconds).

Text:

Multiple articles involved, too long to include full text. Check the motion [here](#).

Reasoning:

World games identified discrepancies in the timings written in the rules. This fixes it.

Motion for next Congress

Athletes committee submitted a motion that is not valid due to article 1.7.7.
(affects competition rules related to Olympic Games)

This motion will be discussed at 2025 Congress:
To consider X count before 10 count in case of ties.

Proposal 1

Articles: Multiple articles involved

Submitted by: World Archery Americas

Summary:

Creating U30 age category for para archery instead of usual U18 and U21 age categories (results in creating 17 new categories).

Reasoning:

The growing development of para-archery and the increasing participation of younger para-archers calls for the existence of a category in which archers under 30 years of age can compete among themselves. The World Archery Americas Para Archery Committee considered the statistics of participation of younger archers in international events in the last few years, as well as the fact that the percentage of archers who have had their disabilities since they were children is very low. Therefore, it is not practical to use for para archery the same age categories we have for the able-bodied.

Proposal 1 - AMENDMENT

Articles: Multiple articles involved
Original by: World Archery Americas
Amendment: Para Archery Committee

Summary:

Creating U21 age category for para archery instead of proposed U30.
Allowing Indoor Para Archery events.
