

BYLAW

Approved by FITA Council on 6 March 2010
Effective as of 6 March 2010

Book 3, Article 8.3.2.7.1

8.3.2.7.1 *An arrow consists of a shaft with head (point) nock, fletching and, if desired, cresting. The maximum diameter of arrow shafts will not exceed 9.3mm (arrow wraps will not be considered as part of this limitation as long they do not extend further than 22cm toward the point of the arrow when measured from the throat -nock hole where the string sits- of the nock to the end of the wrap); the points (heads) for these arrows may have a maximum diameter of 9.4mm. All arrows of every athlete must be marked with the athlete's name or initials on the shaft. All arrows used at any end will carry the same pattern and colour(s) of fletching, nocks and cresting, if any.*
