

Book 2, Article 7.2.1.1

*A question was raised by a Member Association on the ruling for the use of 80cm faces:
"For FITA Award or Ranking shoots - must all competitors in the one division shoot at the same style face (i.e. All 3 spot or all single 80cm), or can some use 3 spot and others the full 80cm face (i.e. give the archers a choice of face size to shoot on)?"*

Response from the C&R Committee:

The FITA C&R Committee agrees unanimously that the organizers have the right to propose or a fixed 80 cm target face, or give the archers the choice (80 cm face or 80 cm center). This is to respect the same philosophy as applicable to Outdoor archery (Book 3, Article 8.2.1.1).

However, for World Championships, the 80 cm center is mandatory.

C&R Committee, 24 January 2006
