

Book 4, Article 9.3.10.1.1

The question was raised by the Field Archery Committee on whether the anti vibration/tuning devices called « Tunerz » would be allowed to be used for Barebow.

Response from the Technical Committee:

It is the official opinion of the Technical Committee that the device submitted for examination called “Turnerz” for use in the Barebow division is legal. This device shall be considered as “Limb Savers” and therefore is permitted for all divisions under Article 9.3.10, Book 4, and specifically Article 9.3.10.1.1

Technical Committee, 23 September 2005

Approved by C&R Committee, 25 September 2005
