

INTERPRETATIONS

FITA CONSTITUTION AND RULES

Book 2, article 7.3.1.1.1 (and Book 3, article 8.3.1.1.1)

The Norwegian Archery Federation has requested an interpretation on whether it would be permissible to have advertisement on the risers.

The Constitution and Rules Committee finds the question presented to be within terms of reference of the Technical Committee.

The Constitution and Rules Committee has determined that the following interpretation of the Technical Committee is not contrary to the existing rules or Congress decisions.

Response from the Technical Committee:

The Technical Committee sees no advantage for the Recurve Division by having writing on the riser and do not feel that it would constitute an additional aid in aiming.

The Technical Committee considers advertising on the riser to be legal in the Compound and the Recurve Division, but not legal in the Bare Bow, Long Bow or Instinctive Bow Division without the face side of the riser (side facing the archer) being taped over as is currently practiced for marks, blemishes, laminations, etc., which could be used as sighting references.
