

INTERPRETATIONS
WORLD ARCHERY CONSTITUTION AND RULES

Book 4, Article 22.4.1

The Italian Archery Federation has requested an interpretation on whether the bow displayed below is allowed for the Instinctive Bow Divisions in Field and 3D.

The Constitution and Rules Committee (“C&R”) finds the question presented to be within the terms of reference of the Technical Committee after consultation with the Field Archery Committee.

C&R has determined that the following interpretation is not contrary to the existing rules or Congress decisions.

Response from the Technical Committee:

It is the majority decision of the World Archery Technical Committee that the Instinctive Bow displayed in the photos below is legal in the 3D and Field Instinctive Bow Divisions. The riser in question does not contravene Article 22.4.1. The riser has one adjustable limb pocket for tiller adjustment only and conforms to all other aspects of the rule. Although some discussion was made regarding the lateral adjustability of the limb pockets, the rule does not preclude that feature.

World Archery Technical Committee, 23 August 2013
Approved by the World Archery C&R Committee, 26 August 2013
